MONDAY, NOVEMBER 4, 1907.

By way perhaps of reminding the

Mr. Hugh Graham, proprietor of the Montreal Star, has indited a lengthy

One detail Mr. Graham omits—the names of the unfeeling individuals who refused to materialize the "contributions" and thus defrauded him of his money. But he throws a hint in what is very likely the proper direction. He says his "advances" were prompted by his undying concern for the policy of high protection; what more likely than that the "contributions" were expected from those even more vitally and personally interested in high protection than Mr. Graham? Mr. Graham knew Mr. Borden and his party stood for high pro-

tions, finding it absolutely necessary

The advertisement was doubtless intended to convey the impression that public favors are showered on manufacturers less freely by St. John than by other cities. Perhaps this is true, but if true it only means that St. John is an exception to the rule that Canadian cities are "easy marks" for ivory-begging factory-owners.

Mayer Ashdown summed up his ob-

RUSSIAN TROOPS BEING WITHDRAWN

From Turkestan and Afghanistan as Result of Russian British Pact.

Moscow, Nov. 4.—It is estimated here that 140,000 men are being gradually withdrawn from the Turkestan and the Afghan frontier as well as from the Northern Persian frontier, this being made possible by the agreement recently concluded with Great Britain which reduces the Russian point in Central and Western Asia to the minimum. These troops are now being distributed through disaffected parts and are a powerful aid to the government in combating the radical and socialistic tendencies, the loyalty of these frontier institutions being well established. The social democracy have been to present in accordance to the Duma demanding that such troops "withdrawn from the front" shall be disbanded and not employed in the work of terrorization. It is pointed out that the present frontier is a direct result of the war with Japan, which resulted in draining all the able men out of the rural districts with the result that millions of acres per acre lack out of cultivation. The resolution will demand a reduction of the military force, and the government to take energetic remedial measures to avert the impending national catastrophe of famine.

SOME FACTS ABOUT THE GREAT LONDON POLICE

Statistics Regarding the Greatest City in History of the World—the Police Report.

London, Oct. 29.—The seventeenth volume of the London County Council is a compilation of absorbing interest. One year of life of the greatest community of human beings that the world has ever known is set forth in a series of charts and clearly drawn maps and plans add to the interest of the work.

Perhaps the tables which set forth the ages at which Londoners marry are of special interest. The great majority of men for each sex are from twenty-one to twenty-five. During the year, 15,888 young men of twenty-one married, and 15,485 of the ages of twenty-one to twenty-five inclusive. Of the opposite sex, 22,236 brides at twenty-one and 22,000 of the ages of twenty-one to twenty-five inclusive.

May Weds December. Boy and girl marriages were comparatively few. Two girls of fifteen married during the year, one a man of twenty-five and the other a man of thirty. The same age at which boys and girls marry. There were two of these, one marrying a girl of fifteen and the other a girl of sixteen.

Two cases of May and December were recorded. In all, 177 marriages were celebrated, one a widow of eighty-eight and one a bachelor of eighty. Four bachelors did not marry until turned seventy, and seventeen spinster married sixty. In all, 2,099 widows married, and 1,000 widowers and widows were united.

The total number of marriages for the year was 29,048 (707 more than in 1906), or 34.3 per 1,000 of the population, an increase from 32.5 for the period 1901-1906, and a rate of over 22 for 1901. The following table summarizes other statistics of interest:

Lawrence,	5	10
Lawrence,	33	450
Quota,	14	25

Fallow and red deer, it is interesting to observe, are kept in the enclosures at Battersea, Victoria, and Finsbury Parks.

Thamesian doves, pigeons, guinea-pigs and squirrels are also included among many other things over which the council's parental care is exercised.

Horse Gives Way to Motor.

The features of the report on the Metropolitan police for last year just issued are:

1. Decrease in criminal offences and apprehensions.
2. Increase of street accidents.
3. Disappearance of the horrid hand-
 1906, before the motor took
 the total apprehensions in 1906 were
 19,992, a decrease of 7,420 from 1905.
 There was a marked decrease in minor

SPORTING NEWS

District News

VEGREVILLE.

Bulletin News Service.
J. J. Hollar, who was arrested for the shooting of Richard Harper, near Gilpin, had a hearing before Magistrate Fleming today and was sent to the Fort to be tried at the next court. There was no evidence taken as to Harper in self-defense. He is to be taken to the Fort tonight.

John McAlley, north of town, threshed 6,500 bushels of oats off 42 acres, and 1,100 bushels of wheat off 42 acres. Some of the oats are fit for seed, the balance are milling oats. T. Cadlow shipped a car load of hops today to the Griffith Co. They weigh from 150 pounds to 400 pounds each.

The marriage of John Fairbank, of Warwick, to Louise Hever, of Harry Hill, was solemnized last Wednesday at the home of the bride's parents. Rev. Mr. Allen, of Vegreville, led the nuptial rite.

The work on the new town hall is near completion. Bert Jonsson has the contract and expects to have it ready for the carpenters about the middle of next week, weather permitting.

FORT SASKATCHEWAN.

Bulletin News Service.
An old time Thanksgiving supper was held in Sumner's hall on the evening of Thanksgiving day, under the auspices of St. George's Church. The program consisted of three songs, a reading of music by the Fort band, vocal solo and a variety of songs. "Two Lovers," played by Strathcona talent. The evening's performance was wound up with a grand dinner. After dinner a pleasant evening was spent.

Bellows, based off quietly in the Fort. Old time, the usual prank was indulged in, and a variety of amusing unscrupled. "A little nonsense now and then, is relished by the soul of man."

The Presbyterian church, property of looking "fine and dandy" with its fresh paint on masts and fence, but a new stained in front of the church; and this is not all, as there are still greater improvements under way.

A city hall has lately been organized by the Fort. From present conditions a very good team will be put on the ice. Selkirk has now one of the best teams in the west, outside of Winnipeg, and with good support, the team ought to be able to give a good account of themselves. A town league will be formed, with five teams as it was found last year's town league was a splendid success.

NO CUP YET.

Calgary, Nov. 4.—When Burn, the Calgary long distance runner returned from the Calgary race, he was disappointed to find that the New Westminster fair management failed to come through with the cup. This was caused by the fact that the New Westminster fair, when told of its threatened to be manager of deflation of character. At a special meeting of the fair board in that town it was decided no cup would be started but the New Westminster fair was instructed to write the Calgary paper for publication. Burn has not received the cup yet.

INTERMEDIATE HOCKEY.
Brandon, Nov. 2.—Although earlier than the season, the hockey season in the west, Brandon is to have a first class intermediate team. The Friday evening sharoaks will hold their annual meeting for the purpose of organizing the sharoaks, during the coming season. The sharoaks are being organized by the present officers. It would appear that in intermediate circles the sharoaks should, during the coming season, receive a fairly respectable name for themselves. Efforts are being made to get one of Winnipeg's teams into the series and if it is successful in winning the Brandon, Winnipeg, Fargo and Souris should certainly be productive of some first-class games.

LONG AND LAUDER TO SCRAP.

Trinidad H. Long and L. Lauder box in Calgary for the light weight championship of Canada. The bout is for 15 rounds and promises to be fast.

In the Herald Road race around the mountain, Montreal, A. C. Wood of the Gordon Harrier, won, with Earl Cote, M.A.A., second; Patrick Royal, M.A.A., third; J. W. McCune, M.A.A., fourth; L. Lumbie, M.A.A., sixth. The time was 28:44, beating last year's record by 8 seconds.

There will be a meeting of the hockey intermediate tonight at eight o'clock in the Young Men's Liberal Club.

A KITCHEN TIP.

If you have some hard, dry lemons do not throw them away. Instead, put them in a pan of hot water, set it where the water will maintain about the same degree of heat without boiling, and let the fruit soak for two or three days. When taken out and dried, the lemons subjected to this treatment will be as soft, juicy and rich in flavor as though they had never grown hard. They may even be grated, for the oily condition of the peel will also be restored.

A most satisfactory dishrag is made from white muslin. Fold the size of eight times, and then cut it out, then stitch on the machine backwards and forward three or four times with a good long stitch. These dishrags are light, durable, easily kept clean, and very inexpensive.

ALL SOULS.

Why fear the night? Why shrink from Death.
That phantom woe!
There is nothing in heaven or earth beneath.
Save God and man.
—Whitlir.
